

Guide DS03EN

# Drive Selector Guide

A complete line of proven motion control products and resources to solve your application – worldwide.

## Technology

- Stepper ●
- PMDC (brushed) ●
- BLDC (brushless) ●

For over 60 years, ElectroCraft has been helping engineers translate innovative ideas into reality – one reliable motor at a time.

As a global specialist in custom motor and motion technology, we provide the engineering capabilities and worldwide resources you need to succeed.

## CompletePower Drives

Simply what you need. No more, no less!

Power Input	Technology			Set-up Tools
DC 	Stepper 	PMDC (brushed) 	BLDC (brushless) 	Screwdriver

A complete line of speed controls and servo drives with a wide range of performance and feature combinations provides a range of product with the exact fit for your application. The ElectroCraft CompletePower™ drive products are ideal fit for those motion control applications that require a simple solution but must not compromise on performance. The full line of CompletePower drives feature:

- DC input power
- Easy-to-use switches to select functionality
- Simple screwdriver required for system set-up
- Common connectors for easy installation

To see a complete line of motor-based linear actuator products that connect to these drives, please visit our website at [www.electrocrafter.com](http://www.electrocrafter.com).

## CompletePower Plus Drives

Maximum flexibility ... maximum functionality!

Power Input		Technology	Set-up Tools
DC 	AC 	BLDC (brushless) 	PC + Windows® SW Interface

A full line of high performance brushless digital drives with functionality built-in to meet even the most demanding motion control applications. The ElectroCraft CompletePower™ Plus drive products provide the user the ability to configure the drive into the ideal motion solution through an intuitive computer-based user interface. The full line of CompletePower Plus drives feature:

- Both DC and AC input power
- Wide range of command input options
- High performance with Hall only or Hall and Encoder feedback
- Set-up wizard to guide installation
